Dave Mills introduced our speaker for the meeting, Dr. James Clegern, President and Founder of Kinetico Solutions in Loveland. Dr. Clegern came speak on the solution to power storage that his company developed and is developing. Dr. Clegern received his PHD and started his company after a 22 year career in the US Airforce.

LAST WEEK'S PROGRAM

James Clegern, Executive Director and Founder of Kinetico Storage Solutions spoke about the types and importance of energy storage in today's world. He outlined the many forms of energy storage that have been used throughout history including, among others, thermal and kinetic. After receiving his Doctorate, Clegern founded his company based on kinetic energy storage using a non-chemical form of preserving energy, a much safer way of storage in a world that now largely depends on Lithium-ion batteries and other chemical solutions. He emphasized the affordability and safety of his storage systems.
