PROGRAM

Our own Norm Rehme, Pres - Pulliam Community Building Foundation, presented updates on the renovation project for this Loveland landmark. Highlights of Norm’s presentation included the following:

• This 20,000 sq ft building was for many years the civic heart of Loveland, after being built in 1938.
• Its basement was for more than 70 years the meeting site for Loveland Rotary Club!
• Dual role of foundation: save the structure from neglect and destruction, and assist City of Loveland, as a catalyst, in revitalizing the building.
• Vision of project: create anew a multi-purpose facility for community; benefit downtown Loveland and greater area; enhance the city experience; and support families, service groups, and businesses.
• Construction 54% completed - new infrastructure, code, and safety work: electrical, water line, fire suppression, egress stair towers, wider doorways.
• Auditorium becoming a multi-purpose ballroom.
• Big success is new internal elevator- $400 K cost.
• Many requirements (code) didn’t exist in 1938!
