The Four-Way Test
- Is it the TRUTH?
- Is it FAIR to all concerned?
- Will it build GOOD WILL and BETTER FRIENDSHIPS?
- Will it be BENEFICIAL to all concerned?
- Is it fun?

Chartered in 1920 as Club 685
ANNOUNCEMENTS

Dave Mills announced that the literacy committee has finished the Chromebook project and now has two new projects: One will supple Camp Read with books to help students who struggle with reading; the other is for training for teachers to help support students during the school year with reading. Drew Johnson said thank you for all of the support for Governor’s Art Show so far and the committee is still looking for sponsors to help reach goal for the year. Yvonne Pedersen reminded the club that gala is on May 1st and seats are limited, please also send photos of yourself as a kid to missyvonnep@yahoo.com. Tom Carrigan asked for members to sign up to help with the KidsPak 4th Annual Citywide Food Drive on March 6-8th and the goal is 37,000 pounds of food donated this year – there are 350 volunteers so far but still need 50 more. KidsPak has also applied for a few grants and has partnered with Subaru of Loveland and Embassy Suites to take 135 kids to Disney on Ice.

BOARD MEETING UPDATE

Jon Kindschy updated the club on the board meeting last Wednesday. Literacy programs, interact programs were discussed and the board also heard from the Duck Race committee and the Loveland Satellite Club. The Satellite Club is working on a bike match program to have people donate working bikes and the club will get them fixed up and get them to people who can use them, please reach out to Rico Devlin if interested. The board voted to go dark on May 12th and voted to grant 3 requests, talk to Ron Schlattman for more details.

PROGRAM

Betsy Burns introduced Kevin Cook who has a column in the Reporter Herald and is a naturalist and had degrees in biology. In 1887, the president passed a tariff on imported vegetables and this lead to a supreme court decision that it was okay to charge a vegetable tax on a fruit. Botany All of the beverages that we drink depend in some part on plants. Fruits are biologically defined as the result of a pollinated flower and are named by botanists by the specific ways they develop. Grains are botanically single seeded fruits: oat, corn, barley, rye. Many classic vegetables are actually fruits: squash, green beans, cucumbers, etc. Most nuts that we eat are seeds, including black pepper. Culturally and botanically the botany of a table is an interesting subject.
