Chartered in 1920 as Club 685
ANNOUNCEMENTS

Carolyn Weinberg (2-Min Thumbnail): One of our newest Red Badges, Carolyn, told her story. She and Ron moved to Loveland three years ago (from California); she’s the CFO for a local cabinetry business; and she claims she’s not as exciting as Ron. (Many in the audience seemed skeptical about that last item.)

Carol (RI / Foundation): Two Paul Harris Plus 4 awardees recognized: Becky Grob and Irv Johnson

Diane (Governors Art Show): Good news is that we are closing in on our volunteer obligations for this event. Thanks to all who have signed up!! But we still have a few slots to fill on May 21 (Gala Night) and early June (for art pick-up times).

Tom Carrigan (KidsPak): After just signing a new lease at the Forge building (old HP site), KidsPak will move there later this month (mid May). Just under 66,000 meals sent home YTD. Last pack day is May 16. Last delivery to schools (this school year) is May 24.

Dave Mills (Literacy Projects): There will be a new and exciting summer camp in TSD for 2021 - Camp X-STREAM (a combo of Camp READ and STEM camp). STREAM = Science, Tech, Reading, Engineering, Arts, and Math. The free camp will be held June 14 - July 1, and is open to all TSD students in K through 8th grade. There will be volunteering opportunities. Stay tuned!

PROGRAM

Melanie Peffer, of UNC (Greeley) & CU (Boulder) gave a presentation on “Biology Everywhere.” Highlights of her remarks included these:

- She’s researched people’s beliefs about science, and her conclusion is that people need to be more confident about science.
- If we knew how often we experienced science - like Biology - we’d engage more with it, for our benefit.
- The arts can be a bridge for people to engage with science, for the health and well-being of society.
- One example of this: Santiago Ramon y Cajal, who brought his passion for drawing to the early studies of the human brain. He said (1897), “All outstanding work, in art as well as in science, results from immense zeal applied to a great idea.”
