tended LHS and was a member of the first golf team;
served in the Vietnam war and was a surveyor after
the war. He eventually became president of Land-
mark Engineering and had many varied interests in-
cluding being a member of Elks Club, LRC and
American Legion.

nual Duck Race, the committee needs some volun-
teers to help out at Art in the Park. Please turn in

PROGRAM

Heather Ekre introduced Dr. Steven Schuster,
who has been with UCH Health for 7 years and is the
medical director for the oncology research depart-
ment. Dr. Schuster talked to the club about Oncolo-
ogy in 2020 and what they are working on in their
research department. The treatment approaches in
2020 try to avoid chemotherapy by using targeted
and individualized therapies that often times work
better than chemo. They do this by: attacking the
mutation that can cause cancer, using genetics to
determine the treatment or by using immunothera-
pies. UCH Health in Northern CO has about 80 open
clinical trials and the program has a great team that
supports the research group. Their home base is at
the Dellenbach Research Center.
