## PROGRAM

Rotarian and Loveland Fire Chief **Tim Sendelbach** spoke briefly about the importance of having carbon monoxide (CO) alarms in our home, and urged all members to install an alarm if they don't already have one. He then introduced Don Johnson, whose daughter, Lauren, died of CO poisoning at the age of 23. Don told of her passion for service and justice, with the Lauren Project being created in her honor, and with Don serving as its president. Lauren Project has distributed over 10,000 CO alarms, many in Northern Colorado, and has also made many grants around the world for volunteer international service projects. Thanks to Tim and Don for the presentation.
