

## THE FOUR-WAY TEST

- 1 Is it the TRUTH?
  - 2 Is it FAIR to all concerned?
  - 3 Will it build GOOD WILL & BETTER FRIENDSHIPS?
  - 4 Will it be BENEFICIAL to all concerned?
- (And... Is it FUN?)

## ANNOUNCEMENTS

**Brian Nienhaus** : **Kathryn Vilha** was thanked for stepping up to be the new *club financial secretary*. Also, **Drew Johnson**, **Bill Moninger** and **Diane LaPierre** (and anyone else interested in helping) will be handling the *Governor's Art Show & Sale pedestal painting project* (at Loveland Museum) on Sep 16.

**George Stroh** : Reviewed how *Rotary Foundation* invests the money within its various funds, including Annual Fund (conservative liquid and fixed assets with lower return), Endowment Fund (stocks, equity investments with higher return), and PolioPlus Fund (short-term, fixed-income securities with lower risk).

**Rick Parker & John Stewart** : Pictures of top winners for large, decorated ducks were shared, and the tumultuous history of the *2020 Duck Race project* was recapped. A \$25,518.46 check (proceeds from the fundraiser) was presented to the Loveland Rotary Foundation, and Kathy Zavala Tyson won the contest for guessing the check's amount (only off by \$356.77), receiving the Pourhouse gift certificate!

**Dixie Schmatz** : *League of Women Voters for Larimer County* is now soliciting questions for candidates to answer in forums soon to be held for elections for County Commissioner candidates, State House and Senate candidates and District Attorney.

**Dick Bradsby** : *KidsPak* updates: (1) the team needs more volunteers for food bag deliveries on Fridays, (2) Medical Center of the Rockies is doing their annual fundraising for KidsPak (yeah!), and (3) pickup trucks (and their drivers) are needed for picking up and transporting food donations to the food bank from various grocery locations.

## PROGRAM

Joe Bowden, a subject matter expert on *EMP (Electromagnetic Pulse)* for the U.S. Strategic Command, spoke on fact versus

fiction when it comes to the effects of EMP on our lives—whether it occurs naturally (from space weather such as solar storms) or nefariously (when weaponized). Highlights of his talk included the following:

- an EMP burst in the stratosphere will disable (fry) delicate electronic devices in a wide area, but is harmless to humans, animals, and plant life
- EMP events resulting from solar storms have caused major power outages (blackouts) on earth
