EOC Rotary on Facebook

Rotary Youth Leadership Awards (RYLA) is an intensive leadership experience organized by Rotary clubs and districts where you develop your skills as a leader while having fun and making connections.

What are the benefits?

Connect with leaders in your community and around the world to:

- Build communication and problemsolving skills
- Discover strategies for becoming a dynamic leader in your school or community
- Learn from community leaders, inspirational speakers, and peer mentors
- Unlock your potential to turn
 motivation into action
- Have fun and form lasting
 friendships

What's involved?

RYLA events are organized locally by Rotary clubs and districts for participants ages 14-30. Depending on community needs, RYLA may take the form of a one-day seminar, a three-day retreat, or a weeklong camp. Typically, events last 3-10 days and include presentations, activities, and workshops covering a variety of topics.

Your community might host a RYLA event for secondary school students to hone their leadership potential, for university students to develop creative problem-solving strategies, or for young professionals to learn ethical business practices.

How can I get involved?

RYLA participants are nominated by local Rotary clubs. <u>Contact your</u> <u>local Rotary club</u> to find out more about RYLA events in your area, how to apply, and any costs of getting involved.

Are you a member or alumnus of Interact, Rotaract, or Rotary Youth Exchange? RYLA can reconnect you with Rotary. Attend a local, regional, or international RYLA event to continue building your leadership skills or volunteer as a peer mentor.

Health and Hand Washing in India

It is estimated that 24,000 children, 5 - 14 years old, die every year in India due to poor hand washing.

Dr. Rahul Mehra, Rotary Club of Canon City, Colorado, with support from the Rotary Club of Moab, Utah, is working with Dr, J.S. Thakur of the Rotary Club of Chandigarh to improve the health education training in the Chandigarh region of India. This area of India has about half a million students.

They plan to work with local schools to implement a mandatory health education curriculum for students in Grades 6 & 7; conduct teacher training and develop student and teacher resources for Grades 1 - 12. They plan to have this first phase of this ambitious plan complete by July 2018.

To learn more or to get involved contact Dr. Rahul Mehra at rahulmehra35@gmail.com.

Water Water Day Competition

In June, WASRAG will be awarding \$500 to two projects that improve the quality of water and/or level of awareness in your community. Prizes will be for the Best Project - the one with the most impact, and the other the most innovative project.

A brief description of the project needs to be submitted to info@wasrag.org by May 1st, 2018. Include in your description what you are doing, the target audience and the impact of the project. Remember to include your Club and District name and contact information.

For project ideas go to http://www.worldwaterday.org/

To get your club involved in assisting or to learn more visit their **Facebook page** or read the **story on the WASRAG website**.

Saving Lake Atitlan

Rotarians are not shy of tackling large projects. Bringing clean water to over 400,000 people who live around this lake in Guatemala is a significant undertaking.

Using a large Global Grant, from The Rotary Foundation, the Rotary Club of Northfield, MN, District 5960, is the Lead Club and the host club of Lake Atitlan in Guatelama, they are updating waste treatment facilities in one of the municipalities at the uppermost part of the watershed.

Remove a wart. First rub as much of the wart away with a good piece of brain coral or other abrasive stone. Next apply a cloth dipped in strong rum. The jury is out on whether it is best to then set it **ablaze or not. Patient's discretion is** recommended based on tolerance to burn pain. Repeat process daily until no sign of the wart remains.
