Serve, don't help

When we feel we need to help someone, it assumes that people lack something that somehow we can provide - strength, intelligence, wisdom, experience or something else. When we help, we tend to look at ourselves as superior to the person we help.

When we truly serve, we see the other as an equal, with dignity regardless of their circumstances. When we serve, we see each other's strengths and assets, not their failings and deficits. We respect the other's circumstances and have empathy for their struggles and share their aspirations. There is nothing to fix. Sometimes, especially when people cannot communicate well, personal presence alone has a big impact.

Each of us is on a unique path. How could serving versus helping make a difference to those we serve (and transform ourselves in the process)?

TEAM LEADER GUSTAVO NUÑEZ

**GSE 2011 Inbound
Argentina Team Member**

**ROTARY CLUB OLAVARRIA
Civil Engineer 60**

My name is Gustavo. I`m sixty years old and I live in the city of Olavarria, Buenos Aires State.

I have four children. Guadalupe, (29) she is married and she has a baby girl named Liz. (3 month old). She is Food Technician. Gustavo, (27), he is an Industrial Engineer. Maria Luz (34) She degrees in Hotel Management, and Manuel (17) in High School, at this time doing a Rotary exchange in Switzerland.

I was an exchange student too back in 1967/68 in Woodward, Oklahoma. I had a great time there, and I`m still in permanent touch with my American Parents, Tom & June Duggin. We had visited back and forth several times along this years. I also stayed with the Braly`s family.

My son Gustavo was an exchange student in Colorado, in 2000, and Maria Luz went to Italy in 2002 with the same program.

I entered Rotary in 2001, and of course, I`m in charge of this program in my club. I also helped in the 4920 District to find places in the European Area since 2008.

My specialty right now is to crush Stones. I`m the General Manager of a Granite Quarry. Before that I was in the road construction business.

If possible, I would like to see something of this area, or also in the garbage disposal area. This is something is coming up real strong, and I would like to see how they do it there, about management, industrial process, and so forth.

Happy Birthday to YOU!
