

Keeping Children Safe

Membership Declaration

This is a joint declaration between the newly joined Keeping Children Safe (KCS) member organisation and KCS, to dedicate themselves to achieving the highest possible International Child Safeguarding Standards. We declare:

The Mission

We will work to ensure all children have a safe and healthy development into adulthood by ensuring our organisations do no harm through our activities, staff, partners or volunteers.

Safeguarding Standards

We will continually strive to learn and develop better safeguarding measures in our organisations whilst extending our advice and support to our partners to do the same. We agree to work together in exceeding the minimum KCS standards and working towards KCS certification within three years.

Advocacy

We recognise that to achieve this vision we need to reach beyond our current membership, partners and clients, extending our reach to all sectors and regions. We are committed to advocating the importance of safeguarding in all our work, that of our partners, and any organisation or individual we are in contact with. This includes our responsibility to always act in the best interest of a child and never to turn a blind eye when there is evidence of wrongdoing.

The Network

We will speak as a community on safeguarding issues, share best practices, offer advice openly, engage in network activities and contribute for the benefit of other members. We will invite those with specialist and personal experience to share their knowledge with us in open forums. We will seek new organisations to join the network to expand our influence.

Statement of Commitment

Keeping Children Safe is committed to working with members to achieve its vision, both individually and as a network, by providing actionable advice and guidance when needed. KCS will work with its members to ensure they receive the appropriate support according to the membership agreement.

The member organisation:Rotary Club Prague International.
is committed to exceeding the minimum KCS standards in all our work, advocating the KCS

mission to all those we are in contact with and engaging the KCS network to strengthen our measures.
