ROTARY CODE OF ETHICS

My business standards shall have in them a note of sympathy for our common humanity. My business dealings, ambitions and relations shall always cause me to take into consideration my highest duties as a member of society. In every position in business life, in every responbility that comes before me, my chief thought shall be to fill that responsibility and discharge that duty so that when I have ended each of them, I shall have lifted the level of human ideals and achievements a little higher than I found it. In view of this, it is my duty as a Rotarian:-

TO improve myself, increase my efficiency and enlarge my service, and by so doing attest my faith in the fundamental principle of Rotary, that HE PROFITS MOST WHO SERVES BEST.

TO realize that I am a business man and ambitious to succeed; but that I am first an ethical man and wish no success that is not founded on the highest justice and morality.

TO conduct my business in such a manner that I may give a perfect service equal to or even better than my competitor, and when in doubt, to give added service beyond the strict measure of debt or obligation.

TO consider no personal success legitimate or ethical which is secured by taking unfair advantage of certain opportunities in the social order that are absolutely denied others, nor will I take advantage of opportunities to achieve material success that others will not take because of questional morality involved.

FINALLY, believing in the universality of the Golden Rule, all things whatsoever ye would that men should do unto you, do ye even so unto them, we contend that Society best holds together when equal opportunity is accorded all men in the natural resources of this planet.
