Chuck reminded all to vote in the primary and per his daughters recommendation, vote for the incumbent for Minnesota Supreme court.

50 years ago Lynda first discovered the Beatles and interviewed George Harrison's mother while she was a journalist in High School. This was in 1966 at their final tour of the US.

NEXT WEEK'S PROGRAM:

Jennifer will introduce John Susukidd who will talk about America's Concentration Camps and the holocaust.

GETTING TO KNOW OUR MEMBERS:

Dave Newman has 2 adult children, he is a retired attorney and has worked and continues to work for various banks and development companies. He has been a Rotarian for 33 years.

PROGRAM:

Dave Newman, the district head of Fast for Hope, gave a short history of Fast for Hope which began with all clubs giving up a breakfast and the money going to a international project. After listening to a speech at the Rotary international Convention in Denmark where the speaker spoke about the need for sustainability projects instead of just water. We needed to get to the heart of issues by changing the culture. In Nicaragua we are doing just that. With the help of another non-profit and in cooperation with a local Rotary Club we are working in the Masaya region. Dave told many stories of the frustration of following through on projects which required the cooperation of 3 mayors which took forever finally requiring the intervention of villagers and

Rotary and Dave to get them moving. They are solving their own problems, working with Rotary and it is moving along but not without hurdles. They have an ingrained culture of expecting help from the outside that they need and are overcoming.

THIS WEEK'S JOKE

Ploughing in Ireland

On a bitterly cold winter morning a husband and wife were listening to the radio during breakfast.

They heard the announcer say, "We are going to have 8 to 10 inches of snow today. You must park your car on the even-numbered side of the street, so the Snowplough can get through." So the good wife went out and moved her car.

A week later while they are eating breakfast again, the radio announcer said, "We are expecting 10 to 12 inches of snow today. You must park your car on the odd-numbered side of the street, so the snowplough can get through." The good wife went out and moved her car again.

The next week they are again having breakfast, when the radio announcer says, "We are expecting 12 to 14 inches of snow today. You must park...." Then the electric power went out.

The good wife was very upset, and with a worried look on her face she said, "I don't know what to do. Which side of the street do I need to park on so the snowplough can get through?"

Then with the love and understanding in his voice that all men who are married to blondes exhibit,

the husband replied.....

"Why don't you just leave it in the garage this time?"
