

BEFORE SURGERY

Wualter Montenegro came to Flory in May with a knee that had healed poorly after a previous surgery. He was seen at an orthopedic mission in November and had surgery March 1- Surgical fee \$520. It seemed to be successful.

However, after a few days he noticed redness and swelling. He was hospitalized in isolation and put on antibiotics for several weeks.

AFTER SURGERY

INFECTION SET IN

Thankfully, the hospital funded his stay and Faith in Practice paid for the antibiotics. We paid for x-rays, cultures and labs - \$182

Flory said a hospital psychologist stopped in to visit with him each week as well, to help keep his spirits up.

**Wualter was released this past week and is good to go!**

He sends us blessings and extreme thanks!

We are so thankful to partner with Faith in Practice and the hospital Obras Sociales that they run, in order to get the best care possible for people with scarce resources in Guatemala.

Don Jose Manuel is of extreme poverty. We helped him get prostate surgery last year. This year he just had bilateral hernia surgery. He is so grateful for our help!

**Dona Navidad suffered from an abnormal gait and numbness in her lower extremities.** She was identified at our clinic in Jan of 2018. After numerous tests and waiting for an appointment to become available, she had surgery on her knee late in March and will hopefully have the other one done in 6 months.

**Surgical fee - \$520**
