

Mitchell Parchem
Senior Substance Abuse Counselor

Mitch Parchem has worked in the field of substance abuse treatment for the last 28 years. During that time, he has worked in multiple levels of care including detox, inpatient, and outpatient settings. He also spent eight years in management positions including for a Medication Assisted Treatment center for the treatment of opiate addiction. Mitch is currently back in school working on a graduate degree.

Mitch's perspective on addiction is that it is a disease not only destroying the life of the addict/alcoholic but affecting everyone around them. Treatment must therefore provide for the recovery of everyone it touches.
