

CTAG - the Closing the Achievement Gap Program (grades 6-12) in the Lima City Schools is a program that addresses social/emotional and academic needs of students who have been identified as at-risk. Individual one-one sessions are held with students as well as small group instruction. The goal is to help students recognize the importance of their education, despite any obstacles, and create a path and vision for their own success.

The Lima City Schools would like to invite Lima Rotarians to speak to a small group about your profession and how education was important to your success. The group would last 30 minutes and occur during school hours. It is important for current students to meet and interact with successful individuals in our community.

Please complete this form if you would like to talk to our CTAG class about your profession and how education has contributed to your success. Our instructor will reach out to schedule a date and time for you to speak to the class.
