“Building Resiliency Through Intentional Integration”

HTP is focused on resettling Afghan allies evacuated and relocated by USG and other volunteer evacuation organizations. HTP addresses system gaps and anticipates long-term needs to help Afghans build resilience and fully integrate into their new communities.

HTP Vision

Afghans safely and expeditiously resettle in America and integrate at the community level where they build the resilience to thrive as Americans’ newest neighbors and achieve their American Dream.

HTP Mission

To honor the promise to our Afghan Special Operations brothers and sisters and their families.

How We Do It

- Mobilize veteran and citizen volunteers to provide comprehensive support
- Collaborate with trusted public and private organizations
- Leverage our special operations skills and relationships
- Partner with reputable veteran programs to deliver tailored solutions to our Afghan allies
- Share the stories of human connections forged on the battlefield between Afghans and Americans

Who We Are

We’re a diverse group of veterans and volunteers seeking an honorable end to the Afghan War to heal the wounds of war for ourselves and our Partners.

Take Action

Help provide relocation, resettlement, and resilience for our Afghan Allies and their families.

Status: HTP working with [InterFaith Works](#), [Clear Path](#), [RISE](#), and others; will update following coordination meeting planned for week of 2/28.
