Shawn has a "Thank you" card for Phil... please add your sentiment.

Jada Hooks sent thank you for her Community Grants gift last year.

Vaughn went to PETS (President Elect Training Seminar) in Illinois this weekend.

History night social March 29th ... No Noon Meeting

Program: Dr. Steve Salerno presented a program on the Facilities Referendum for some things that haven't been touched since the schools were built. He told us that neat things happening in the schools: Band trip to London, Interact Club, Ranked 26 out 426 school districts in Wisconsin by Niche.com, National Gymnastic Coach of the year.

There was a Community Survey that gave data on what the School systems need. Three things emerged: Safety and Security Upgrades, (secure entries for the Early Learning Center, Middle School and High School), High School learning environment upgrades (classrooms, science labs, tech-ed and agriculture). Infrastructure and building system upgrades (technology, roof, plumbing, electrical and kitchen).

He is also concerned about students who have to park along highway 92 so he'd like to work on more & better parking.

Keep in mind that cost of construction may go up and interest rates also may go up. Steve thinks this is a good time, "sweet spot" for doing this \$40 million project. Please go to referendum.mhasd.k12.wi.us to use a tax calculator in order to see exactly how this referendum would affect your taxes. The web site also has lots of information and videos that will help you to make a choice. There are open house events scheduled, so go to the web site to see the needs of the schools.

Please vote on April 4th

Does anyone want to sit on the panel on Fundraising (10K Raffle) at District Conference? Let Shawn know. It will be in LaCrosse on May 12-14th
