Our speaker today was Dianne Boos, shown here receiving her thank you from our club, she is on the way to the moon.

Dianne talked about some of the ways to communicate with people who are deaf, most children born to deaf parents become part of the "Deaf Culture" others, try to assimilate themselves into the hearing world . Remember which either you are talking to, make eye to eye contact at all times . There are different ways of conversing with people who are not able to hear, one is American Sign Language which is not universal and the Manuel Alphabet as shown on page two. ASL is not words but concepts, facial expressions are part of the communication system , but no matter which you choose try to always face the person you are communicating with, allowing them to see your facial expressions and body language. Dianne did a great job and majored in sign at college and help to teach it. She was called in at last minute and like the true Rotarian she is, she came through for her club. We thank her for stepping up, for those who did not make it you missed a good one. It pays to come to the club you never know what you might learn.
