Haiti— Since ROTARY

“ The Children Stopped Dying”

This is a powerful statement made by our speaker today Ron Lundberg and The Good Shephard Foundation, and it certainly got my attention and I hope got yours.

The Chevreau Lombard Regional Clinic is a cooperating organization with The Good Shepard Foundation and has been providing regular medical care for the population of multiple small communities along the lower Artibonite River for the past 8 years . To date, they have seen over 30,000 patients. Their medical data indicates that more than 60% of clinical visits are the result of:

1) Drinking contaminated water 2) bathing in contaminated water and 3) transmission of parasitic diseases through outdoor defecation due to a lack of basic sanitary facilities (Latrines) ecnologies and local cooperative structures in place to resolve this problem now. These communities have been experiencing a medical crisis of epic proportions for years and we have the local knowledge, appropriate technologies and the local cooperative structures in place to resolve this problem now.

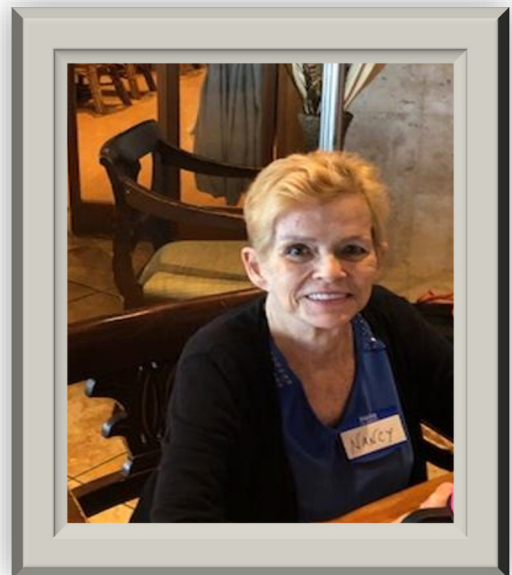

Pilot wells installation and water purification have been verified.

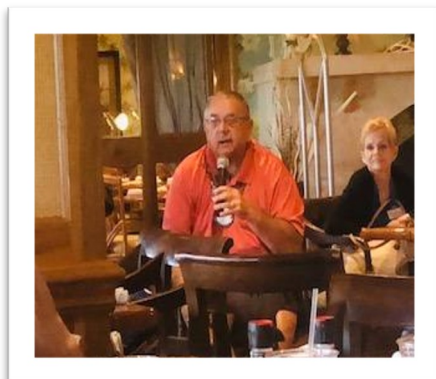

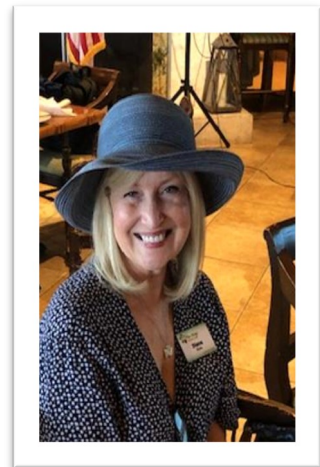

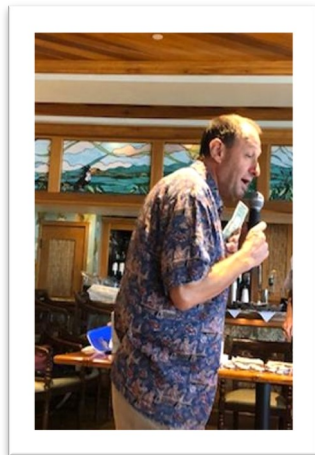

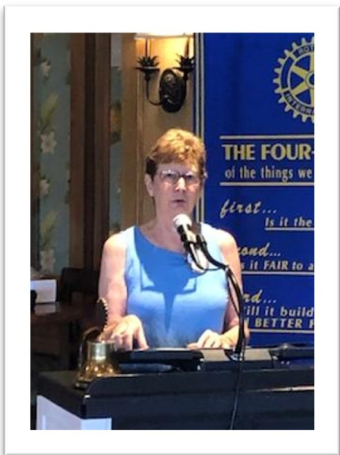

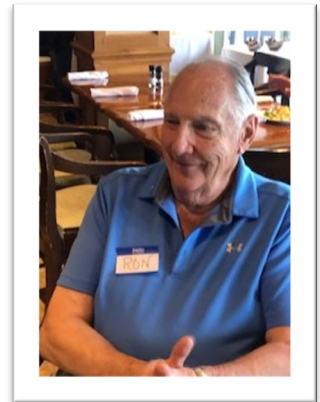

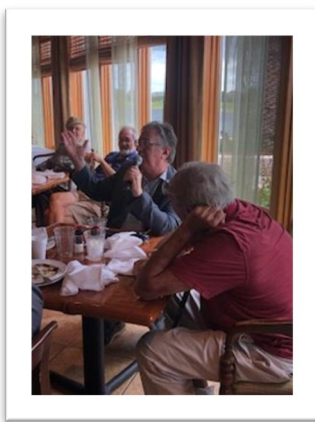

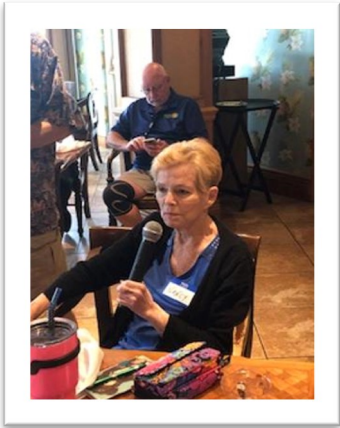

Pilot latrine installed and functioning .

They need our help with funding.

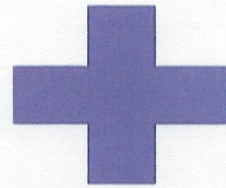

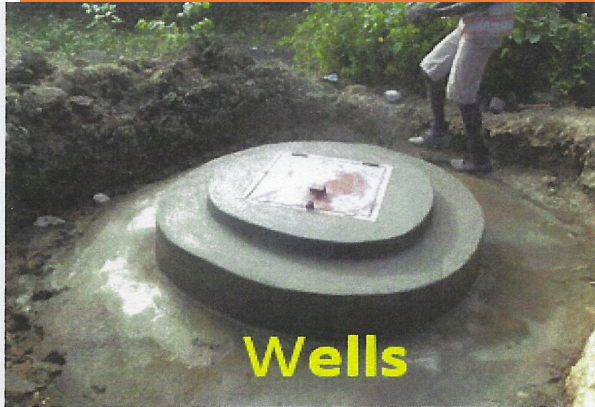

Next time you drink a glass of water think of what these people are drinking..

The Four Way Test

Of the things

We think say or do

1. Is it the truth?
2. Is it fair to all concerned?
3. Will it build goodwill and better Friendships?
4. Will it be beneficial to all concerned?
5. Will it be FUN?
