Dr. Dianne Culpeper and Bob Bredin Chairperson of the scholarship committee are shown as Dr. Culpeper receives the coveted Cup.

Our speaker today was Dr. Diane Culpepper , Dr. Culpepper is the Executive Director of Lake Technical College. She explained how our club has taken a leading role in helping students at The College. Working with Dr. Culpepper and her trusted assistant Dean of Students, Dianne Thomas we have been able to financially help many students in many different ways. Unlike Academic Scholarships awarded thru outstanding high school performance, grants to technical students are granted on a basis of need supplementation of a student's effort to complete financial obligations to receive a certificate of performance in their chosen trade. We also were able to set up a method of assisting some of these students with financial help to complete their GED test and thus receive a high school equivalency.

Lake Tech College is doing an outstanding job with 93% of their students completing their courses, 83 % of their students are placed in jobs a(and that is getting better), as well as 93% of their students that are required to move on by getting a License in their trades do so with no problems.

One of the most amazing things, theses students are not just High School kids they are a combination of High Scholl and adult students all trying to better them selves.

This is the 50th anniversary of Lake Tech College and to celebrate they are building a new Manufacturing Training facility to open in the fall of this year.

Did you know that in Lake County alone 42,363 people have no High School Diploma, and that it cost a student \$128.00 to take test , can you imagine trying to choose between food or clothing for your kids or taking a GED test, it is not much to you and me but it is to some one with a young family earning less than minimum wage it can make a big difference. I am proud that as a Rotary Club we have been able to help these young and older students get a better start in life. **So congratulations Lake Tech keep up the good work and we are here when you need us.**

Dick Kaynan explains the workings of the Belk Charity Days, you sell a ticket for \$5.00 and they in turn can use it at The Belks Store for a discount of \$5.00. We get to keep the money we sold and the customer gets to redeem the ticket back. This is a win — win situation. So see Dick and get your tickets to sell to your friends and neighbors .
