President Bill hands over the “coveted cup” in appreciation of our Speaker Sal Gentile of The American Tinnitus Association for a very informative talk on what Tinnitus and it’s causes and some of the ways one can cope with it.

ATA is the nation’s foremost and trusted organization committed to finding cures for tinnitus and hyperacusis. Their commitment demands focus, determination, strategy and resources.

ATA promotes synergy between dedicated medical professionals and researchers who work with and within the tinnitus community. The battle for a cure is real, and will be won through advances in technology and medicine, areas where they have often been a conduit to new discoveries. They fulfill their mission by : funding targeted research projects; providing education, hope and support for the tinnitus community; advocating for effective public policies focused on advancing science towards the cures for tinnitus and hyperacusis; and collaborating with others to promote awareness, encourage prevention and to ultimately silence tinnitus.

Have you met this young lady, she is our newest member. Her name is Heather Colton

We all stood to greet her, but where you there?

The Pot Grows and the cards diminish, so if you want to miss a meeting, go ahead that gives the rest of us a better chance to win over \$1,500

Our sergeant of arms tries a reverse strategy, to see if his luck will change, even that, did not work.

A smile was on her face as her number was called.

See the cards on the table that is all that is left between you and the pot.

Not feeling well or even worse. Let the club know what is going on.

We are family and we care about you and yours, if you don't let Dean know, how can we be of help?

Dean's phone number is: home 352-259-5485, cell 913-707-9889. E-Mail: cdrazzo@gmail.com
