## Lincoln South Rotary Club

Policy on reinstating in-person meetings  
Board Approved December 18, 2020

In-person meetings will begin after the Lincoln-Lancaster County Health Department's Risk Dial has remained in the yellow or green for at least two consecutive weeks. Then Lincoln South Rotary will consider resuming in-person meetings. Should the Risk Dial slip back into the orange scale, meetings will be cancelled.

### Protocols for Meeting In-person:

- 1) A quality Zoom meeting will be provided to members who are not comfortable attending in-person meetings. Quality is defined as a very good picture, excellent audio, and the ability to interact between the in-person audience and the online audience.
- 2) The number of attendees that wish to meet in-person will be limited to a maximum number practicing "appropriate" social distancing. Online reservations will be required and made in advance of the meeting day. Prepayment will be required and paid when reservation is made.
- 3) Masks will be worn by all in-person attendees, except when eating.
- 4) No person will attend if they are showing any signs of illness or symptoms related to COVID 19.
- 5) Accommodations will be made so that speakers can be either in-person or online.
- 6) At this time badges will not be worn for in-person meetings.

If we follow the above criteria, we should be able to begin in-person meetings. However, if we do not have at least the minimum required reservations for a meeting, we will need to revisit our commitment to having in-person meetings. The maximum number of attendees will be limited to a room's configuration to accommodate social distancing.
