Lincoln South was privileged to have the GSE team visiting the District from Brazil as our guests and speakers for the meeting. The leader of the team and also a Rotarian was Dr. Lillian Wanderley who is a geographer & Professor of the Environment at the Federal University of Sergipe. Her team members were as follows:

Diogo Messias– Psychologist

Guilherme de Oliveira– Agronomist

Luis Souza Santos-Computer Engineer

Thierry Prates– Economist

Lillian exchanged banners from her Rotary Club “Rotary de Marceio Farol” which is one of 90 clubs in her district. Lillian and each of the team members told the club about the area where they were from and about their respective professions. Some of the highlights included:

Brazil is a very diverse country with people from many cultures. The primary agricultural products are sugar cane, corn, oranges and beans. Petroleum is also a big industry in the country along with diamond and marble mines.

The area of Sergipe is rich in folklore and has the 4th oldest city in Brazil. The area of Alagoas has beautiful beaches. The area of Bahia was discovered by the Portuguese. Brazil has 27 states but all are governed from the Federal level. There are no separate state governments.

Brazil is looking forward to 2 major events, the World Cup in 2014 and the Olympics in 2016. Everyone was invited to come visit.

Thierry Prates created some fun when he took his shirt off to reveal his new “Big Red” t shirt. Go Big Red!

Welcome to the GSE team from Brazil!
