Book: True Escape Stories

Author: Paul Dowsell

Short Story: Escape or Die

This story takes place in Lyon, France at Montluc military prison. Andre Devigny was kept there as a prisoner of war. He worked for the resistance. He was later joined by a boy named Gimenez. The two of them made an escape. Andre made it to freedom. Gimenez wasn't so lucky. He was recaptured. It's believed he was executed. A movie named: "Escape from Montluc" was made. The same rope used in the escape was used in the movie. Andre was hired as a film advisor. He was given the Cross of Liberation medal. He retired in 1971. He died in 1999.
