

Gideon Moore Service Project

Gideon Moore is a wonderful 3-year-old boy living in Doylestown. He suffers from Spinal Muscular Atrophy Type 1. This is a disease that affects muscular ability, and head control, as well as the ability to deal with eating and secretions. Gideon is constantly connected to life saving medical equipment in his home. His life is in jeopardy whenever power goes out in the home.

To help the Moore family, the Central Bucks Rotary with help from Lowes of Warrington, Walsh Electric, and Penn Valley Gas will provide a whole house automatic back up power generator to allow Gideon's equipment to continue functioning during power outages.

Instead of holding a fundraiser for Gideon and adding further delay to the installation of the generator, the Central Bucks Rotary has decided to underwrite the cost of this effort now and is setting up this Funding Raising Site to help cover some of the costs.

If you are interested in helping Gideon, you can make your Tax Deductible contribution at www.centralbucksrotary.com. This will direct you to the Central Bucks Rotary Website where you can make your contribution. Or if you prefer you can send your donation to:

Central Bucks Rotary

PO Box 1628

Doylestown, PA 18901

Please write "Gideon Moore" in the memo section of your check.

Lowes, Walsh Electric, Penn Valley Gas and the Central Bucks Rotary wish to thank you for your support in this worthy effort. Watch this page for pictures and updates to this project as they occur. Please

share this page with all of your friends and follow the Central Bucks Rotary to learn about all of the service project that we get involved with throughout the year.
