

The Collegeville Rotary Club and the Perkiomen Watershed Conservancy are working together to serve our community. We are announcing Collegeville Rotary's fourth annual golf outing on Monday, July 9, 2018 to support both organizations.

The venue is the breathtaking Bellewood Country Club (400 E. Schuylkill Road, Pottstown PA), known for its outstanding golf course and fine dining. The day will include full access to the course, lunch, prizes, raffles and dinner at the elegant club house facilities. The format will be a 4-person scramble with prizes awarded for the first three places. Skills events will also be included.

We are asking for your participation in our golf outing, either through challenging your fellow golfers, by contributing to our raffle to make the day more enjoyable, or by a direct financial pledge.

**For Raffle Donations, contact Mary Cook Email:  
mary.cook7430@gmail.com**

**All donation items must be received no later than  
Monday, June 25, 2018**

**The Collegeville Rotary Club** was founded in 1949 and has been active in our community since that time. We are proud to share the Rotary tradition of "Service above Self", supporting projects throughout the community as well as internationally. With 1.2 million Rotarians around the world, we are part of a force that can, and does, change the world. Please see our website for information about service projects in which our club is involved, or join us at one of our meetings or social events. We meet weekly at 6:15 pm on Wednesdays in the Wimser Center at Ursinus College.

Since 1964, the **Perkiomen Watershed Conservancy** has worked to conserve and protect the natural resources of the Perkiomen Creek Watershed. The Watershed encompasses 362 square miles (231,680 acres) and 55 municipalities in four Pennsylvania counties: Berks, Bucks, Lehigh and Montgomery. The Perkiomen Watershed Conservancy's goals are to educate & inspire, provide tools for actions, engage the watershed community and increase organizational stability. The award winning Environmental Education and Conservation programs reach thousands of people each year. The environmental education staff and volunteers conduct natural history and water resources programs that are designed to be hands-on and keep participants active and involved. The Conservancy's conservation projects provide for 'on-the-ground conservation' while promoting community involvement. Finally, the Conservancy's outdoor recreation events and races celebrate the beautiful natural resources found within the Perkiomen Valley.
