A recent study, the ALICE Report, addresses people in our community who are **Asset Limited, Income Constrained and Employed (ALICE)**. The ALICE population represents individuals and families who work hard and earn more than the Federal Poverty Level, but less than the basic cost of living. ALICE struggles to afford the basic necessities, including housing, food, child care, health care and transportation. And they are vulnerable to severe setbacks if faced with unexpected financial challenges. (Learn more about ALICE at <https://rappahannockunitedway.org/alice/> ) Rappahannock Rotary is very interested in this issue and what we might do to help. Does your organization have programs that support this population? \_\_\_\_\_ If so, please describe those services/programs. \_\_\_\_\_
