and creative community
engagement.

HILTON'S POINT - 1625

The first settlement at Dover was made here at the southernmost point of Dover Neck and was called Hilton's Point after Edward and William Hilton. They were fishermen from London who, in 1623, established their fishing industry at this scenic site.

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the left and right sides of the frame, creating a modern, layered effect. The central area is a clean, white space.
