## ***Costa Rica Rainforest Beachfront Eco-lodge Adventure (for 6)***

***Opening Bid - \$3,000***

*One of the world's most interesting phenomena occur in the Golfo Dulce in Costa Rica: between July and October, and again from January to April, hundreds of Humpback Whales travel to this bay to give birth, and to seek refuge from Orcas - the only natural predator to baby Humpbacks. This unique Gulf - surrounded on three sides by untouched rainforest - has an unusually large amount of fresh water flowing into it, making it too toxic for the Orcas, but perfectly suitable for Humpback Whales.*

*The Osa is a haven for a rich diversity of flora and fauna, with an abundance of rainforest and marine life. The sport fishing is unbelievable, and unlimited opportunities for exploration abound all round. Here's a chance to visit one of the most vibrantly alive and truly special places on the planet. Your rainforest beach adventure awaits!*

***Winning bidders can enjoy their week stay year round, with the only black out period being the weeks of Christmas and New Year. Bookings are handled on a first come, first served basis - subject to availability at the time of booking. Valid for 2 years from the date of purchase.***
