## Engineers Without Borders (EWB) Guatemala Water Project

Kevin Frost spent several weeks in January 2020 working on the Guatemala water project funded with a grant from Rotary District 6250. He reported that the community almost completed the large community water tank and they walked all the water lines and staked out the locations of major equipment. The EWB students and community grew together as they worked together. It was a truly life giving trip, he said. Kevin Frost also went with several students to meet Rotario Los Altos, our counterpart in Quatqetzeltanago, Guatemala. They were very welcoming and had a great interest in the project and would like to work with both our club and engineers without borders in the future.
