

NEW ADMINISTRATION STARTS

PRESIDENT BOB COOK, NEXT WEEK, WILL PRESENT HIS OWN PROGRAM. What party planks he has hammered out, have not been released to the PRESS yet so we can only speculate upon them. Knowing the man as we do, we think there will be something in them for everyone.

The matter of a balanced budget will probably be handled in a straight-forward manner. There will be fewer and smaller fines, coupled with larger expenditures than ever. The Board will discuss with great gravity a balanced budget and as soon as that traditional ritual is dispensed with Bob will call for a vote and the debt limit will be raised without much argument. In order to keep the debt from skyrocketing a new gimmick about dues will in all likelihood be introduced at mid-term. Dues will be raised to the nice even semi-annual figure of \$50; and each member will have the option of tossing a coin double-or-nothing - the coin to be supplied by the treasurer. This will have several other advantages including that of getting rid of the non-sporting bloods, if any there be left in the Club - by that time!

Attendance will go up to 100% every meeting. The chairman will be instructed to arrive at that figure by any available means, or else he loses his job.

In the matter of classification and club growth every bus and every train will be met by the Recruitment Committee.

Recreation will take on a new importance. A trip to some lovely paradise by chartered plane is in the works. As a weekly aim to help us digest our "lunches", now that Chuckles Abrott will no longer be on the job, the Hayward Rotary Club's newly organized chamber music society will play during the dining period.

Anniversary gifts for Rotary-anns is going to come in for revision. There are other merchants in the club besides Wretched Bowman who can work on this project also.

As to the matter of birthday gifts, the details are still secret. It has been rumored that Buchanan Oldsmobile-Cadillac has been approached about presenting full-sized automobiles. This will become feasible as soon as the new compacts come on the market.

Several other revolutionary ideas will not be discussed in detail at this time, but will be heard about soon. Rumors of increased interest in the baby derby with Lions Club are true; bonuses might be the answer here. The early leaver may be frustrated by reversing the order of club business. The speaker would start in at 12:15.

A discussion of the President's health has cropped up only recently and we want to say here that this was investigated. His doctors have reported that he is in excellent health for such a young man and he will get healthier as his term unfolds. It was substantiated that Bob is suffering from a mild form of Muscularis Levator Labii Superioris, but that a regimen of Burgermeister and Peter Wheat is producing a cure. His doctors are difficult to pin down on one point; one reports he is as strong as a mule and the other reports he is as strong as an elephant.

You can take your choice!

See you Monday.....

# Club Organization for 1960-1961

District Governor  
MEL HENNINGSSEN, Hayward, California
