## "Mia's Dream"

Hayward Rotary Club and Foundation are proud sponsors of the Mia's Dream universally accessible playground project, inspired by 9-year-old Mia Vasquez, who has cerebral palsy and dystonia, a movement disorder that causes her muscles to contract uncontrollably. Her wish is to have a playground near her home in Hayward where she and other children with disabilities can play.

KEYNOTE SPEAKER

---

*H.A.R.D. General Manager Paul  
McCreary*

**Pam Russo**, executive director of the H.A.R.D. Foundation, introduced our keynote speaker: Paul McCreary, general manager of the Hayward Area Recreation and Parks District. Prior to coming to H.A.R.D., Mr. McCreary worked for agencies in Dublin, Pleasanton and Walnut Creek in business and program management and implemented \$100 in capital improvement projects. He has led H.A.R.D. for 18 months, with one of his highlight experiences being the passage of Measure F1.

The 75 year old district was formed as an independent special district and has oversight by a board of directors of five. H.A.R.D. has more than 140 parks and facilities and signature locations include the Hayward Plunge (built in 1931), Japanese Gardens, Hayward Shoreline Interpretive Center, Kennedy Park, Skywest and Mission Hills golf courses, Sulphur Creek Nature Center, Meek Estate and Park, the Douglas Morrison Theatre, and the Alden E. Oliver Sports Park.

STATISTICS: H.A.R.D. records more than 72,000 of private rental bookings annually. In programs, there are 3,994 activities offered, amounting to 36,000 registrations, and hundreds of thousands of casual users of the facilities. The most popular program is aquatics, with 11,000 registrations a year.

Measure F1 was supported by 79% of the voters in H.A.R.D.'s boundaries. It updated safe, clean, park and recreation facilities. The bond issue will raise \$250 million to be expended in six to eight years. The Phase 1 bond sale was last June for the first \$125 million. The average life cycle of a H.A.R.D. facility is 30 years, so the district is addressing those ready for renovation. H.A.R.D. is looking at a broad implementation of bond funds over many facilities, addressing requirements of the district's master planned projects. Some facilities are 40 to 50 years old, while Mia's Dream

Playground is a new concept to create access for disabled children. Review is by the bond oversight committee and board of directors.

To follow progress of how the bond issue is transforming H.A.R.D.'s facilities, go to [www.haywardrec.org](http://www.haywardrec.org). Agendas and minutes of the oversight committee will soon be posted there, along with progress reports. The "Measure F1" link is in the upper righthand corner of the home page.

After he concluded his presentation, Mr. McCreary took several questions from Rotarians in attendance concerning: park in-lieu fees paid by developers; the order of projects to be completed using Measure F1 funds; and the status of the Mia's Dream playground project to which the Hayward Rotary Club and Foundation made a major gift in 2016.

At the end of Mr. McCreary's talk, **President Stephens** presented him a children's book, *Relaxation and Yoga*, which will be donated to Hayward Library in honor of his keynote speech.

Mr. Golubics will provide an update on the progress of the Downtown Hayward Specific Plan, a long-term community planning and visioning effort to revitalize and grow Hayward’s downtown district. The plan asks several key questions: What is Downtown Hayward like today? What do we want Downtown to become? What strategies can we use to achieve the vision? How do we evaluate and prioritize the strategies going forward? Learn the answers to these questions and more at the next Hayward Rotary Club luncheon, 12:00 noon on August 7.
