Keynote Speaker

Dr. William Lile

In 1999, Dr. William Lile and a partner bought out the practice of the largest provider of abortion services in Pensacola, Florida. Along with putting an immediate stop to abortion procedures and referrals at the clinic, Lile and his partner included a clause in the contract: the man who at one time had led the area in abortions had to agree to leave the region if he wanted to keep trafficking in abortion.

Upon selling the building, the abortionist had left all of his tools, including a suction machine, exam table with stirrups, curettes, and forceps. Lile and his partner immediately set out to put the tools once used for tearing apart preborn babies to good use for the first time, starting with a simple educational talk for their local church.

His passion for the unborn took on new life as he continued to get more involved in informing the church about the grim realities of abortion. That was the beginning of Lile's venture into what has become somewhat of a second career, providing education on abortion procedures for the pro-life and Christian communities through speaking appearances, as well as articles and videos, hosted online at ProLifeDoc.org.

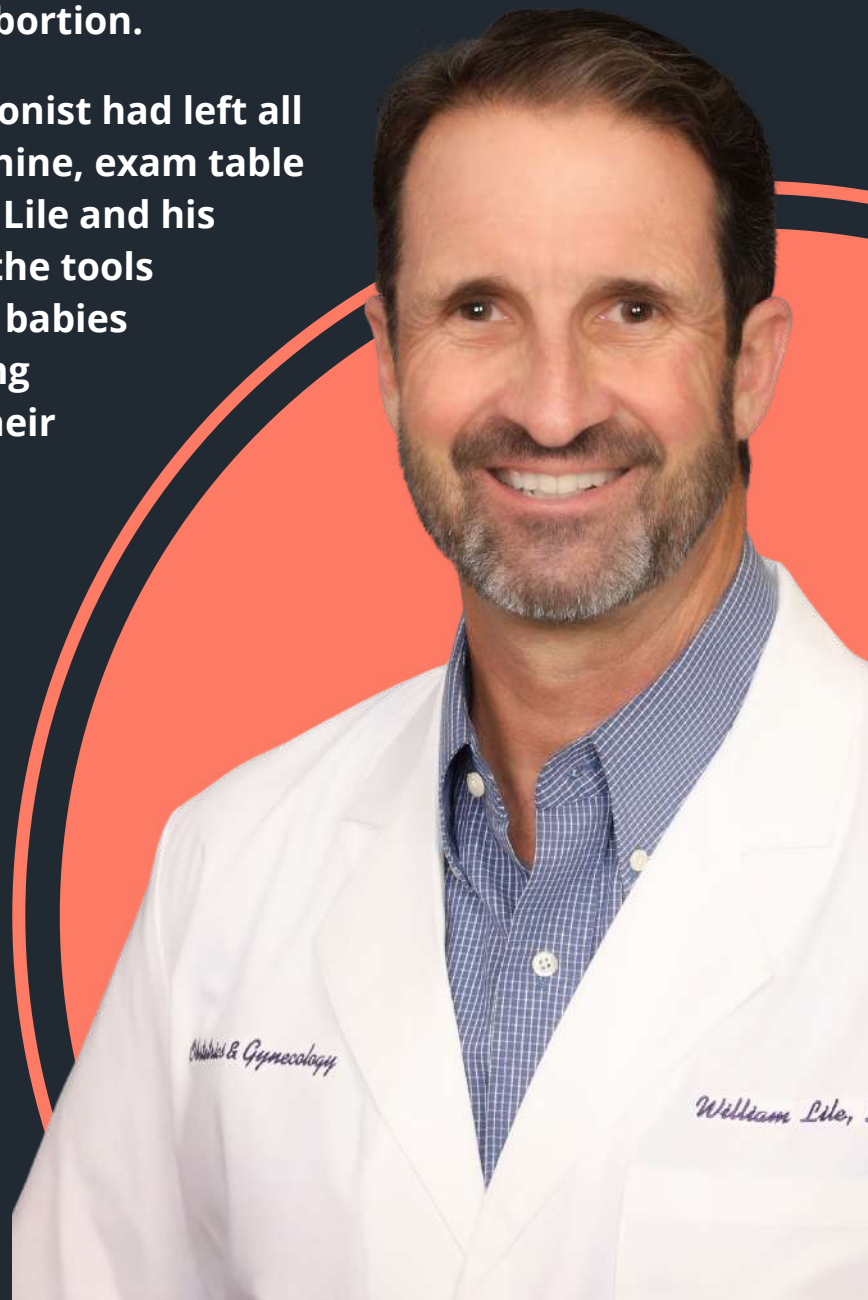

Table Host *duties*
