  - 400+ Specialty Care Providers
  - 60+ other providers

## Highlights

- Multiple practices with National Committee for Quality Assurance (NCQA) Patient-Centered Medical Home Recognition
- Combining the best tools, resources and minds with quality, compassion and service
- Operating model that features physician and operational leadership alignment

# Colorado Health Neighborhoods

## About Us

Colorado Health Neighborhoods is the largest physician-led, clinically integrated network in the region, with more than 5,000 physicians and other health care professionals caring for more than 230,000 people across Colorado. Formed in 2011, as part of Centura Health, the region's top health care system, together with our population health group, we are leading the way in transitioning health care delivery from a reactive, fee-for-service model to a proactive, value-based model centered on the patient.

## Distinctive Features

- Largest Physician-Led Network in the Region
- Independent Affiliates and Centura-Employed Providers
- Contracts with ACOs and Insurance Plans

## By the Numbers

- 600+ practices
- 5,000+ providers
  - 900+ Primary Care Providers (PCPs)
  - 2,500+ Specialty Care Providers
  - 1,600+ Other

## Highlights

- Supports the right care, at the right time, in the right place
- Membership includes population health tools and resources to support whole-person care
- Delivers on health care quadruple aim
  - Enhancing the patients experience
  - Improving health of the population
  - Reducing the total cost of care
  - Increasing provider vitality

# Flight for Life®

## About Us

Founded by St. Anthony Hospital in 1972 with a single Alouette III helicopter, Flight For Life® was the first hospital-based air ambulance program in the United States and has served as the model for more than 300 flight programs worldwide. It has grown to be a regional air medical and critical care transport program responding to nine states in the Rocky Mountain region.

Flight For Life® operates out of Denver, Frisco, Pueblo, Colorado Springs and Durango, to transport patients to the most appropriate hospital, operating within the Colorado trauma system rules for trauma patients. Our transport capabilities include the specialty areas of neonatal, high-risk obstetrical, intra-aortic balloon pump and mountain rescue transports.

# Centura's Position on Public Option

We are witnessing a very unique dynamic playing itself out in health care discussions in the midst of this 2020 election cycle. President Trump's Executive Order on price and quality transparency, and, specifically, in the governor's office and legislative right here in Colorado. Consumers are telling us what they want and need from "the system" --affordability, access and transparency. We are strongly opposed to the Public Option in its current draft as it doesn't deliver on what consumers are asking for and results in unintended consequences. Our Mission and core Values are driving us to build an alternative solution, working with physicians, health plans, and consumers to make health care more practically affordable for the consumer, accessible and transparent like the rest of our "shopping" lives currently are.

**We are incredible people on  
a mission to build whole  
person care and flourishing  
communities.**

**We are Centura Health!**
