Colorado Fall Home Show, September 8-10, 2017: Rich Kramer, Jim Gracey and Dennis Hein are working with the Garden Show Foundation preparing for this event. Time commitment is substantially less than the Spring Garden and Home show but we still need to provide 4-5 people for Friday, Saturday and Sunday. We do all ticket sales using the computer system which becomes standard operating

procedure for both shows going forward. This is a great time to train at a less busy event than the spring show. **Sign up on the attached sheet now and return it to one of us.**

KRAMER'S CORNER:

Here is the latest item Rich Kramer has sent me:

How Happy is a Clam?

People usually have in their list a long life and true love.

A Princeton University researcher has determined that the bands on a clamshell are like the bands in a tree trunk.

By this method it was discovered that clams live as long as 150 years, show no signs of aging and remain sexually active throughout their lives.

The clam is the foxy grandpa of the invertebrate kingdom.

Answer: REALLY HAPPY.

Global Warming and Chickens

Researchers at the University of Delaware, funded by FDA are developing hardier chickens that can cope with extreme heat as might occur from climate change. In extreme heat, chickens pant like dogs. This changes the chemical balance of their blood, which gives their meat a bitter taste.
