**GUEST SPEAKER TUESDAY 1st JULY**

**Justine Murphy  
My ultra-marathon experience**

Justine Murphy recently finished the Blue Mountains 100km "Ultra-Marathon" in 19 hours 55 minutes.

Justine will discuss her experience, including: why she did it, her preparation, the run itself and 'what's next'.

Justine is a member of the RC of Central Melbourne – Sunrise. She started swimming at 30 years of age to get healthy and lose weight. She added strength and cardio classes within a few years and then took tentative steps to start running at 35. Her addiction to running soon took hold and she ran her first half marathon for her 40th birthday and then, most recently the NorthFace100 Ultra Marathon for her 45th birthday.

Although she has not yet won the 'health' battle, she has successfully achieved her weight loss goals, weighing more than 20kg less than when she started her journey 15 years ago.

## ROY'S NEW YEAR

A few notes on the year to come from my "President's Message"

- No special missions but may our club continue to be friendly, diverse, active and interesting. Members should enjoy being members, get a buzz and be proud of what we do.
- I want to get membership up. Diversity is important.
- Hopefully resolve the everlasting need for sustainable funding.
- Focus on the big projects (without discarding the little ones).
- Promote in the CBD, so we are known.
- Continue to grow our e-presence.

Other than that what can I say? We have a great board & executive. How can we lose?

## CHANGE-OVER EVENING

President Doug's review of the past year.

"D G Ross and Annette, D G Nominee Designate Neville and Rebecca, A G Ian and Heather, P E Roy and Annie, Charter President Terry, members, honorary members, partners and friends, it is with pleasure that I present this report for the year now ending.

Firstly, I would like to welcome **new members** who joined our Club during the year: Stuart Ellis (Jo), Sat Mishra (Jaisuree), Rob Hines (Tess) and Stella Avramopolous (Con Matsamakis). I trust all new members have a long and fulfilling time with the Club and their partners also enjoy that association. I also want to welcome Peter Duras and Sue. Peter will be joining the Club in a week or so, having been a member of RC Essendon for 41 years.

A significant and first event in our Club's 28 years occurred in the latter part of the year, when our nomination of **Neville John for District Governor in 2016/2017**, was accepted by District. All members, partners and friends, wish Neville and Rebecca a great and successful journey over the next two years.

In looking at the year, I believe the extent and content of our projects and activities undertaken, illustrate that members of our Club have "Engaged Rotary and Changed Lives". Certainly in my view, our voluntary efforts have been well planned, and executed in an effective and energetic manner. I hope you will agree with me.

**LETTER FROM PALERMO**

*Posted by Tony THOMAS*

Welcome to Palermo but don't mention the M.fia!

We, being laden-down and confused tourists, arrived at Palermo Central Station on a quiet Thursday evening. We found the taxi rank and a helpful concierge there directed us to a taxi in the middle, a small surprise. We showed our apartment address and the driver got under way while chatting on his mobile. The route seemed very circuitous and the bill came to 17 Euro. Giving the driver the benefit of the doubt, I tipped him one Euro. We found next day that the direct route was a mere 3km, in fact we walked it later. The taxi concierge had directed us to his pal as specially plump victims. The driver also turbocharged his meter.

It's small-scale stuff but part of the culture here: 'if it's a tourist, fleece it'. On the grand scale, the local mafia has dominated the place for a century, except for a bloody interlude in the 1980s when intruders from Corleone killed 1000 city rivals.

The mafia's hey-day was 1950-80, when it literally ran the place, selling parklands, school sites, clinics etc to builders of shoddy apartments. There was the sack of Rome by the Visigoths in 410AD and locals here refer to the mafia's 'sack of Palermo'.

Mussolini saw the mafiosi as rivals and imprisoned hordes of them. The arrestees persuaded the invading Americans that they were the cruelly-treated anti-Fascist resistance, and were rewarded with government posts and mayordoms.

Lately, the Mafia has been tapping funding from the European Commission. Robbing ratepayers is naughty but who is the victim if a few billion Euros of EC and World Bank funding vaguely dissolves in half-assed Palermo projects? The Italian Foreign Ministry estimated this year that total Italian mafia turnover is Euro 200bn p.a. compared with the EU budget of Euro 140bn. I have an image of the Mafia as Danae, naked and with legs akimbo, being impregnated with showers of gold from the EC, playing Zeus.
