NEXT MEETING - GUEST SPEAKERS

Member spotlight on Trevor Dymond and John Hinrichs

This week our members Trevor Dymond and John Hinrichs will share with us their study, career, family life, special interests and what motivated them to join Rotary.

SOCIAL MEDIA AUDIT

Daniel Lim is working on improving the Club's Social Media presence with a view to attracting new members and supporting our projects and fundraisers. To assist him with this it would be very useful for him to know which members use social media and, if so, what type.

GUEST SPEAKERS' PRESENTATION - 28th FEBRUARY

Posted by Cecily NEIL

Graduate Diploma in Adolescent Health and Wellbeing review and report

Andrea Krelle, Royal Children's Hospital & Veronica Dempsey, recipient of the Silk Miller Scholarship

The talk was opened by **Andrea Krelle**, from the Centre of Adolescent Health, who talked about efforts to bring together professionals from a wide range of disciplines – doctors, teachers, nurses, police, occupational therapists – for orientation on adolescent health. She highlighted the desperate need of these experts to have

a chance to engage in dialogue, exchange experiences, and undertake critical reflection about their own performance. She stressed the fact that police in particular are often challenged by very difficult situations when working with adolescents, and are not always well supported either within or without their workplace.

Veronica Dempsey (pictured right) then talked about working with adolescents from the perspective of an operations policewoman working in a regional police station some distance from access to any adolescent mental health services. She felt that the Graduate Diploma in Adolescent Health had been valuable, as it provided the opportunity for networking with practitioners from a variety of different fields that could involve working with adolescents. Police in Portland are now increasingly looking at the bigger picture when working with young offenders and victims – at the environment and social impacts on the latter's lives. This enables police to respond in a more sensitive way, and to make more referrals to other agencies in an attempt to keep young offenders out of the courts and back into school. Police are also working to engage with the community more, in order to be seen as people, not just police. Recidivism can now be seen to be decreasing.

The question was raised as to what Rotary could do to help within the community – food for future thought.

Update, District 9800 Conference in Shepparton

Kevin Love provided an update on the Conference, indicating that registration had reached approximately 700, and that meeting the revenue target was on track. He outlined a range of activities that are planned to be carried out in association with the conference

itself, including an important welcome function on the Thursday (with a menu involving a choice of 6-7 ethnic dishes), a golf day, and a Friday night Club dinner. There will also be a Friday lunch targeting early and mid-career people. There will be room for up to 80 people for this lunch, and booking is still open.

Help is needed for a number of occasions, including help with setting up on Thursday afternoon for the welcome function and cleaning up after 9.00 p.m. that night, manning the Rotary showcase and registration desk, and cleaning up after dinner on Saturday night. A roster is being prepared for each event – to assist, it is important to know who will be there on Thursday afternoon.

Marjorie and Bernie are staffing the office, and it is very important that information regarding anything being organised be copied to them.
