Getting Victoria back to business

to connect. Love Destination is available on over 10 million Vizio and Hisense TVs worldwide.

Meeting Report July 21st

Meeting Report Tuesday 21st July Reporter Stuart Cardell

Present Therese welcomed everyone and acknowledged the land on which we met and Anne proposed the toast. We welcomed visitors Puja Ganguli, Rhys Williams and Liz as well as guest speaker Paul Guerra, talking about getting Victoria back to business.

Paul talked about the concerns that businesses are having in these difficult times and the things that would most help them adjust to operating in our new normal. Paul said that the current support from Government is important, but it will need to continue or a large number of businesses will struggle to make it to the end of the year. Paul was happy for to get in touch to talk about these issues. His email is

pguerra@victorianchamber.com.au

Herb and Sean shared an update on the work of Educaring Africa. This is a not for profit that our club and in particular the Dockland group has been involved in including the painting and sending of a container in 2019. A fundraising climb for the project to raise funding for the clinic has been postponed to 2021 and the construction of the clinic has been delayed to February 2021.

The container sent last year arrived in February 2020.

The last trivia night was a great success and the next one is on 31 July.

Pocket Positives: 3 years ago today Flavia came to us as an exchange student and one of our previous exchange students from Norway is expecting. This was followed by a presentation of the highlights of the 2017 District Conference in Shepparton.

Fundraiser from District for End Trachoma is a movie showing. It will be running over the next 4 Fridays.

Watching movies can end trachoma!

In 1974, Dr Neville White, a biological anthropologist, spent part of each year on the Homeland, responding to the community's request to resist the threat of mining license claims. HOMELAND STORY is a moving portrait of a resilient and determined community facing the challenges of maintaining their Homeland and preserving their vibrant culture.

For a taste of this wonderful film, watch the trailer: vimeo.com/336773143

We have been showing this film via Zoom since May, raising funds for the Donydji Community, and eliminating trachoma - the leading cause of infectious blindness in the world - with Australia the only developed country that still has this disease.

I will be showing this film on **Fridays: 24th & 31st July; 7th, 14th & 21st August**. See the attached flyer.
