

SPOTLIGHT ON

Scholarships

The scholarship program stands as a prominent initiative of the Rotary Club of Dar es Salaam Oyster Bay. Its primary objective is to establish opportunities for post-secondary education among economically disadvantaged young Tanzanians.

The program extends its aid to students who have displayed remarkable potential within their chosen fields of study and are dedicated to serving their communities. Despite their commitment, these students face a lack of financial resources to pursue their educational endeavors.

At the Rotary Club of Dar es Salaam Oyster Bay, we hold a firm belief in bolstering local educational institutions, fostering their growth, and contributing to the emergence of capable young leaders across various sectors. By extending financial assistance to young Tanzanians for their studies within the nation, we uphold our commitment to institutions aligned with national curricula and goals.

This approach not only prepares students to contribute their skills to the country's workforce but also immerses them in the contextual fabric of the nation they aspire to serve.
