

Project: Construction of Girls Toilet at Msasani Primary School, Dar es Salaam, Tanzania

Handover Date: 9th November 2021

Handover By: District 9214 DG Young Kimaro

Covered Area: Msasani Primary School A & B

Beneficiaries: 244 Girl students of Msasani Primary School

Eligibility criteria: The school is within the immediate locality of RCOB

Projects RI Areas of Focus:

- Basic Education and Literacy
- Water Sanitation and Hygiene
- Disease Prevention and Treatment

Projects in School to date:

- Planting of trees within the school and along the perimeter.
- Provision of water treatment equipment and drinking taps
- Installation of a water meter
- Payment to water utility company (DAWASCO) of outstanding Bill of approx. Tsh. 1.2m/-
- Providing 2 Libraries (A&B) and refurbishing with READ International under Global Grant and training of teachers in 2015
- Book donation to the school library
- Construction of a perimeter wall (built solely from Tshs. 36m club funds raised from James Bond Movie Premiere)
- Construction of toilet block (Global Grant approx. USD 48,500.
- Various medical camps held annually since 2016 providing medical treatment to an average of 1,200 beneficiaries (both students and adults) each year.

Challenges faced during project implementation:

- Theft of equipment installed in toilet block
- Lack of repair and maintenance culture
- Due to numerous donors wishing to assist school under CSR there seems absence of coordinated approach to projects

Special thanks Partners and Sponsors:

- The Rotary Foundation
- RC Oyster Bay Club Funds
- Rotaractors during Medical Camps
