## Disease Prevention and Treatment

Rotary is dedicated to seven areas of focus to build international relationships, improve lives and create a better world. As one of our key areas of focus, disease prevention is very important to the Rotary community (<https://www.rotary.org/en/our-causes/fighting-disease>).

Rotary's top priority is the eradication of polio, but our members take on far greater responsibilities to fight disease. Rotary sets up health camps and training facilities in developing countries and in communities struggling with HIV/AIDS, malaria and other diseases. Rotary also designs and builds the infrastructure for doctors, nurses, governments, and partners to reach the one in six people in the world who can't afford to pay for health care.

Disease prevention and treatment takes on many forms, from supporting studies to helping immunize people to improving drinking water and sanitation infrastructure. The world relies

on Rotary to tackle these global challenges, and to set an example for others to follow. For more information on our Polio Eradication efforts, view (<https://www.youtube.com/watch?v=LY7BgdBEmlM>).

### OBJECT OF ROTARY

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and in particular to encourage and foster:

**FIRST:** The development of acquaintance as an opportunity of service;

**SECOND:** High ethical standards in business and professions, the recognition and the worthiness of all useful occupations, and the dignifying of each Rotarian's occupation as an opportunity to serve society;

**THIRD:** The application of the ideal of service in each Rotarian's personal, business and community life; and

**FOURTH:** The advancement of the international understanding, goodwill and peace through a world of fellowship of business and professional persons united in the ideal of service.
