**RECAP JULY 28**

**THEME: ROTARY SERVING HUMANITY**

**SUSTAINABLE LIVING:**

**“we do not inherit the earth from our ancestors; we borrow it from our children”**

The Club hosted two representatives from the Sustainability Education Toolkit both of whom spoke to the Club on the aims and objectives of the Toolkit. We were educated as to the Toolkit's principal aim which was to provide students with a keen awareness of the importance of sustainable living by integrating sustainable living into the subjects of mathematics, language art and integrated science. This would then provide students with the know how to make a positive change to their environment and to understand critical issues such as climate change and its impact and recycling. The discussion in the Club following the lecture was also very informative and lively. Of interest, Rtn. Freddy Hart reminded the Club that the Club has always had a role to play in assisting the environment as evidenced by the planting of approximately 250 trees at Barclays Park, St. Andrew. In addition, it was pointed out that the Club does participate in an annual beach cleanup while PP & SAA Andrew advised that there was an infrastructure in Barbados for the separation of garbage which was currently not in operation for different reasons.

**QUESTION POSED TO THE CLUB:**

**“What can the Club do towards sustainable living further to that**

**which is done already?”**

**EXCHANGE OF BANNERS:**

**VP Brenda exchanged banners with Rtn. Joelle Francillette and Rtn. Luciana Raspail of the Rotary Club of Saint Maarten-Mid Isle.**
