The Four Way Test

Of the things we think, say or do

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?

Rotary Foundation Celebrates World Water Day

A child drinks clean water from a spigot in Haiti

Last Thursday, March 22, 2012 the Rotary Foundation joined the rest of the world in celebrating World Water Day.

In Lima, Peru, more than 70 percent of the drinking water comes from the Rimac River, which is polluted with high levels of cadmium, copper, lead, zinc, and arsenic.

To help alleviate that problem, The Rotary Foundation and its partners have supplied water filters to 5,000 families living along the river. "They are not just giving us a concrete box," says Maria Moron, one of the recipients of a filter. "They are giving us health, and our children a better quality of life."

The Lima project is just one example of how Rotarians are helping to improve access to clean drinking water and adequate sanitation around the globe.

You can help support these efforts by making a special gift to The Rotary Foundation.

Your contribution will be used to fund high impact, sustainable solutions to our world's most pressing needs.

On the Lighter Side

Dental Office

While waiting for my first appointment in the reception room of a new dentist, I noticed her certificate, which bore her full name. Suddenly, I remembered that smart attractive girl with the same name had been in my high school class some 30 years ago. Upon seeing her, however I quickly discarded any such thought. This gray-haired woman with the deeply lined face was too old to have been my classmate.

After she had examined my teeth, I had some courage and asked her if she had attended the local high school. "Yes," she replied.

"When did you graduate?" I asked. She answered, "In 1964."

"Why, you were in my class!" I exclaimed. She looked at me closely and then asked, "What did you teach?"
