## **Georgia Rotary Student Program (GRSP)**

Is a **peace program** and **cultural scholarship** established after WWII by returning GA veterans who believed that if the world knew each other better, they would not war among themselves.

The goal of the GRSP program is to identify talented, ambitious students from all over the world, bring them to Georgia for a transformative year at a critical time in their lives, where they learn about other cultures and establish life long friendships with other talented and ambitious young people, Rotarians and other Americans.
