

Supervisor Oscar Villegas

President Peter Anderson once again made history as the first President of the Mighty Rotary Club of West Sacramento in 71 years to hold a virtual online Zoom Rotary Meeting. 50 members were in virtual attendance as **Amy Busch** led us in the Pledge of Allegiance and **Troy Bird** gave a heartfelt opening blessing. It was great to see Song Master **Ricardo Grande** in attendance while at home recuperating from a successful surgery. It was also nice to see our Rotary Brothers and Sisters, most of whom had not seen each other since March when the Mighty Club took a pause. With slightly different hairstyles and significantly more facial hair, it was really nice catching up and making contact with everyone.

Our speaker for the meeting was none other than our County Supervisor, **Oscar Villegas**, who immediately confirmed what most of us were already thinking, it's all **Mike McGowan's** fault. Oscar caught us up to speed on where we are as a County with regards to the Pandemic and the different stages that Yolo County has laid out for the reopening of businesses and services. Oscar stressed the importance that we as the community don't backslide and to stay vigilant with the CDC safety guidelines including handwashing, social distancing and facemasks until a vaccine is available.

This Friday, June 5th, will be our second in the *Zoom Meeting Series*. From a laptop, smart phone or a PC equipped with a camera, microphone and speakers, just click on the link President Peter sends you and join the fun. And, if you close your eyes and take a deep breath, you can almost smell the deep-fried raviolis...

Peter's Principles

Opening Remarks From Friday's Meeting

Each year on the Friday before Memorial Day, National Don't Fry Day aims to raise awareness of all the risks of overexposure to the sun. It is important for everyone to remember to use sun protection and sun safety practices. Unfortunately, skin cancer is increasing in the United States, and the American Cancer Society estimates that one American dies every hour from skin cancer. The risk for ultraviolet (UV) damage to the skin increases as we spend more time enjoying the outdoors now that warmer weather is upon us. We need to take precautions when we are outside in the sun. Using a good sunscreen of SPF 30 or higher, wearing sunglasses and a wide-brimmed hat are a few ways to get started with sun safety. Skin cancer is curable if it is found early. Be aware of changes on your skin with growths and in moles. See your doctor if you have any concerns. Be safe!

I am Peter Anderson and it is days like these that make me proud to be the 71st President of the Mighty Rotary Club of West Sacramento!
