Today's Program.

We will have updates about future events and activities by committee chairmen.

Last Program-August 11

We listened to the biographies of Don Finke Keller, Bill Miller, and Rich Petrol.

Don has a hard time calling one place home, growing up in a military family and serving in the Army. He earned a college degree while working for Walmart for the past 19 years. He and Robyn have three children. Currently, he is the manager of the Walmart Super Store in Georgetown.

Bill is proud to be a product of Crawford, TX. He has a degree in aeronautical engineering and a masters in aerospace engineering from the University of Texas.

He and Joan have been married over 51 years. They have four children and ten grandchildren. He worked as an engineer in different job capacities for a rocket propulsion plant in McGregor for 30 years. Since his retirement there, he has worked as a consultant.

Rich grew up in Topeka, KS, working in his father's drugstore and later driving a tractor in the wheat fields of western Kansas in the summers. During WWII, he served in the Navy on an oil taker.

After the war, he finished his work at Kansas State University, earning a degree in economics. Most of his career was spent in the medical supply business. Next, Rich had a second career in real estate and finally, he retired and moved to Texas in 1998.
