Thought for the Week

The world is moving so fast these days that the person who says it can't be done is generally interrupted by someone doing it. Elbert Hubbard, writer/publisher

Today's Program

Norm Peters is in charge of the day's program.

Last Program-May 20, 2008

Steve Reeves introduced our speaker, Dick Woolheater, member of the Sun City Nature Club. Dick's pictorial presentation and talk centered on the different classifications of snakes and how to identify them.

We learned that 36 snake species are known to be in this area, but only six are dangerous to humans if handled, stepped on, or cornered. Dick stressed that all 36 species are beneficial to humans.
