The Most Serene Republic of San Marino is the smallest of the micro states in Europe which include Lichtenstein, Monaco, Luxembourg, Andorra and the Vatican. It is an enclave within Italy near the Adriatic coast south of Venice.

It was established by a stonemason priest named Marinus who was working on repairing the city walls of Rimini on the coast nearby.

To avoid persecution for preaching against the laws of Emperor Diocletian he escaped inland where he built a chapel and started a village which grew into a city.

The city was recognised by the Pope as independent of Rome on its Foundation Day, 3rd September, 301. Marinus was made a saint and the city was named San Marino in his honour.

Today it occupies an area of 61 square kilometres and has a population of only 30 000 who have among the highest living standard in Europe.

The Rotary Club of San Marino was Chartered in District 2072 in 196 and has 51 Members led by President Marco Tognacci.

PHOTO OF THE WEEK

This week's photo is from Tony Glenn. The town of 1770 in FNQ. This must be why they all travel north – for the beauty and peacefulness?

In Australia, farmers are the lifeblood of our country and they are in crisis. Record breaking heat and lack of rain means farmers are struggling to feed sheep and cattle, and keep crops alive. Families on the land are suffering and they need our help. Channel 9 and Rotary Australia have partnered with the National Farmers' Federation, launching an appeal to big business and everyday Australians, so we can provide some emergency relief. 100% of donations goes to the farmers and is tax deductible via Rotary and RAWCS. Every dollar counts.
