The President's Project this coming year will be at the North Star Mining Museum. **Pat Ward** arranged the field trip to the museum. The docent gave us an informative tour. He told us that gold seekers can either use the most popular placer mining method, or blast it out of the quartz, which is a bit more difficult. The equipment created over 100 years ago was amazing to see, and in the case of the dynamite loader, a bit frightening. The 30 foot Pelton Wheel, still working, demonstrated the danger and difficulty to the mining operation.

No winner for the raffle this week.

*The Demotion will be the program for the next meeting, June 18 at Condon Park. Join us for social time beginning at 5:30, followed by dinner provided by Tom of Bill's Chuckwagon. The evening concludes with a rollicking farewell salute to President Scott and a warm welcome to the 2018-2019 team.*
