-NISHAN PANWAR

Thank you for inviting Goodwill Industries of Hawaii to host the September Pau Hana Vocational Event. No more work – just fun is Pau Hana. We expect members of this Rotary Club to come by and enjoy ono pupus, good company and learn more about how Goodwill Industries serves our State.

Goodwill's President and CEO, Laura Smith, sends her greetings and well wishes. Although she will not be able to join us for Pau Hana, Laura sent a message: "I am humbled each and every day by the tremendous support that we receive and it's through organizations such as Rotary, our Business Leaders, community volunteers and staff that we have been able to help so many people in our communities. So once again, thank you and please enjoy the Pau Hana Vocational Event at Goodwill." To hear more of Laura's message, come to Pau Hana!

In addition, we are showcasing a recent community service collaboration and acknowledging the Rotary Club of Hilo Bay, Speegle Allstate Insurance Agency, Carpetise and the volunteers from the Ola I Ka Hana Youth program for their work in preparing for new flooring at Goodwill's main office in Hilo. You don't want to miss this moving PowerPoint presentation!

In the year ending 2012, a total of **3,679** people were served by Goodwill on Hawaii Island. Of those, **574 were placed in employment positions** and many more were educated to be in a position to get a job. The Hawaii Island Branch operated on a **budget of \$5,191,185** and had **retail sales of \$1,158,801** from Hilo and Kona stores. There were **10,606 donors** and almost **400,000 pounds of materials** averted from taking limited space in our landfills!

You can feel really good about the items you donate to Goodwill. **Ninety cents (\$ .90) of every \$1 in retail sales is used to support agency programs.** Hawaii Island operations encompass ten human services programs, two retail stores and two donation locations. Program participants include low-income persons, immigrants, refugees, at risk out of school youth, individuals with mental illness and other disabilities, and people who are highly challenged (including homeless adults, criminal offenders, and individuals with a history of alcohol and other drug abuse). Come to Pau Hana and meet staff working in these programs!

There is no doubt that I belong to the best Rotary Club in Hawaii. That's what I tell everyone. We're looking forward to meeting and greeting each of you, chatting and chewing and having a good ol' Pau Hana social at Goodwill. See you there!

### ROY TAKEMOTO

As Managing Director of the Hilo Office, Mr. Takemoto ensures responsive service to Big Island clients and experienced attention to Big Island projects. While personally being able to provide a diverse range of services including comprehensive regional planning, environmental assessments, land use entitlements, project management, and legislative drafting, Mr. Takemoto is also able to draw on the extensive resources of PBR's Honolulu office to provide site planning, graphics support, web design, GIS, 3-D visualization, sustainability (LEED) ideas, streetscape and landscape architectural designs, and other services.

Mr. Takemoto uses his experience in both the private and public sectors to seek balanced solutions that are financially feasible yet sensitive to community concerns. The goal in every project is to find pragmatic and principled solutions based on interdisciplinary, innovative approaches, and to provide realistic solutions that would meet Clients' needs.

Most recently, Mr. Takemoto had been extensively involved with the development of a community development plan for Kona, infrastructure financing using community facilities districts (CFDs), and an affordable housing project using a land trust model. The lessons learned from this experience involved concepts such as: transit-oriented design (TOD); form-based codes (e.g., Smart Code); infrastructure "concurrency;" "complete street" standards; comparative advantages and disadvantages of a CFD versus other alternative financing (e.g., improvement districts, General Obligation bonds, tax-increment financing); and the challenges of applying a land trust model to deliver "permanently" affordable housing. These concepts are applicable to public and private sector clients who desire to explore how to apply or adapt similar concepts, or how to best leverage or maneuver through systems based on such concepts.
